

Miss Independent

As this is a coming of age series, the characters are attempting to find their way through the world while battling love and life in the big city. This book is similar in vein to the Gossip Girl series and The Devil Wears Prada. If you are not a fan of books like that, or of twenty-somethings carrying high school grudges into adulthood, this series may not be for you. Please sample the opening pages prior to purchase. Thank you. What happens when you learn the love of your life is marrying someone else? What happens when that someone else is your former best friend? Twenty-three year old Vanessa Rae Brown has it all exceptional beauty, smarts, and an envious career as the Editor-In-Chief of the popular Attitude Magazine, founded by her famous mother. The only thing she doesnt have is what shes always wanted, a life with the handsome Nathaniel Taylor. Unfortunately, Nathaniel decided that a life with Vanessas former best friend might be better suited for him. Not because he wanted it, but because he didnt have much of a choice when Vanessa dumped him in their senior year after she caught him having sex in the locker room showers with his now fiancée, Sheila Harris. Five years have passed since Vanessa has laid eyes on either one of them. Now with their high school reunion just around the corner, itll be impossible to continue avoiding not only their impending wedding, but Vanessas lingering feelings for her ex., and immense hatred for her former best friend. *Due to language and sexual situations, this novel is strongly recommended for those 18+*
