

Legends of the West Volume Four

The Legends of the West series covers the tumultuous 1830s through the 1860s in California, Nevada, and Utah from when the American military and Mexican bandits warred over the riches of Spanish California, to the Bear Flag Rebellion that carried California from Mexican to American ownership, to the 1850s gold rush, to the silver discovered in Virginia City in 1859, to the beginning of the Civil War and the division of a nation. Each volume contains three full-length novels. Volume four is about two men who are drawn unwittingly into the drama and danger of the Civil War because of those they love. Their exciting stories are told in: The Man from Shadow Ridge, Canons of the Comstock, and Riders of the Silver Rim.
