

What Grows in the Garden (BWWM Romance)

This was originally released in 2014 Elle Baron is a young widow trying to adjust to life as a single mother in Sunset, Texas. Shes thrown for a loop when she sees, Harper Sobieski, her ex-boyfriend and childhood friend, standing in her garden. Harper works as a technical marketing engineer for a company in Munich, Germany and Elle has never forgiven him for moving away twelve years earlier. Despite Harpers visits throughout the years, Elle still harbors hard feelings while fighting her lifelong attraction for him. She gets the shock of her life when Harper proposes marriage. Even though Elle has wanted nothing more than to be Harpers one-and-only, she cant shake the feeling that Harpers sudden desire to get married is uncharacteristic and there might be more to the story. During the weekend, Harper and Elle realize that their love shines brighter than ever, but before Harper goes back to Germany, Elle must choose between marrying Harper and the possibility of never seeing him again.
